

# Raj [Your Surname]

B.Tech — Computer Science & Engineering  
Rajkiya Engineering College Banda  
■ yourname@email.com | ■ LinkedIn/GitHub/Canva

## Profile Summary

Aspiring web developer and creative designer passionate about building clean, user-friendly digital experiences. Skilled in front-end technologies and Canva-based visual design, with hands-on experience from an industry internship and national-level hackathons.

## Technical Skills

Languages: Python, HTML, CSS, JavaScript  
Tools: Canva, Figma, GitHub  
Specialties: Web Design, UI/UX, Creative Visualization

## Internship

**Intern — Softpro India Pvt. Ltd.** (June 2025 – August 2025)  
Gained practical experience in web development and design projects, applying technical and creative skills to build real-world solutions.

## Hackathon Experience

Participated in national-level hackathons, including IIT Jodhpur and NIT Agartala, showcasing innovation, teamwork, and problem-solving abilities.

## Projects & Creative Work

Designed professional posters, presentations, and UI layouts using Canva — blending creativity with functional design.

## Career Objective

To work in a dynamic environment where I can apply my development and design skills to create impactful user experiences and continue growing as a professional developer.
